***Claim Rejections - 35 USC § 112***

Claim 10 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 10, "the vehicle body" (line 2) and "the wheel" (line 2) lack antecedent basis. A 'vehicle body' and 'wheel' have been adequately identified. Moreover, the language at lines 8 – 9 is not clear. Is the 'inquiry' made by 'first communication device' to the 'first communication device' itself? Please advise.

***Allowable Subject Matter***

Claims 1 – 9 and 11 – 19 are allowed. The prior art of record fail to teach wheel information-acquiring system for a vehicle comprising, among other limitations, a setting device, storing ID of the wheel, that acquires identification information held by a first communication device and wirelessly transmits by radio the information and installation position information set and input of the wheel in the vehicle body to a second communication device, and causes the second communication device to correlate the identification information and the installation position information with each other and to set and register a result of the correlation.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. As per attached PTO-892.
